

## Foundation and Corporate Grants Supporting Education Resource Guide March 2010

Below is a list of foundations, corporations and government resources that support educational technology in a variety of means. These foundations and corporations are always changing their focus, guidelines, and grant amounts based on economics and other variable factors. The best first step is to contact the foundation or corporation before starting the funding request process. Also, some of these resources accept applications/submissions from the school/educational institution, while others accept only non-profit 501c(3) organizations, such as private/specialized schools, PTA organizations, school support groups, or social organizations that will donate the funds to the school.
